

**Tahoe Keys Lagoons Aquatic Weeds Control Methods Test  
Independent Environmental Analysis Team Technical Staff**

Jim Good, M.S.: Principal Investigator

- leading aquatic studies for EIR/EIS and antidegradation analysis

Toni Pennington, Ph.D.: Aquatic Plant Specialist and Quality Assurance Manager for aquatic studies

Dave Tomasko, Ph.D.: Limnologist

- leading development of conceptual model for nutrient loading to and nutrient cycling within the Tahoe Keys lagoons

Dane Behrens, Ph.D., P.E.: Hydrologist

- leading development of water balance for lagoons to support nutrients conceptual model

Jeff Wirtz, Ph.D.: Aquatic Toxicologist

- leading ecological and human health evaluations for herbicide chemicals and cyanotoxins

Cameron Turner, Ph.D.: Fisheries Biologist

- leading fish and benthic macroinvertebrate studies

Joel Shaich, M.S.: Wetlands Biologist

- leading wetland inventory and delineation and assisting with terrestrial biological surveys for plant, wildlife, and RTE species

Jackie Milbank, M.S.: Terrestrial Biologist

- leading terrestrial biological surveys for plant, wildlife and RTE species

Jeremy Pratt, M.S.: Project Manager

- managing overall study progress and facilitating agency interactions

Ian Kroll, Ph.D.: Deputy Project Manager

- assisting Project Manager and coordinating with biological technical leads
